

# Traka Touch Pro V

## Specifications

traka  
ASSA ABLOY

Introducing the Traka Touch Pro V. The next evolution in the proven Traka Touch range.

Built on the successful, market-leading Traka Touch range, Touch Pro is a more secure, durable and cost-effective solution that looks as good as it performs.

Traka Touch Pro is our most secure cabinet to date. It is built to last, built for simplicity, built for flexibility and built with sustainability in mind.

The Touch Pro has improved height and depth, providing extra room and a better way to organise and manage keys. A new sleek modern, modular design offers a universal appeal and fits different environments, making it quick and easy to assemble, install and configure.

### General

- 7" capacitive touch screen
- Powered by Traka designed electronics
- Built-in power supply
- Battery backup
- Solid locking door
- Available as a networked solution with TrakaWEB software
- Reader or biometric access options available
- Secure storage and management for up to 5 keys

### Network

- Full network capability and management through TrakaWEB
- Centralised administration and reporting
- Browser based for remote administration

### Optional Features (+ Benefits)

- Reason/fault logging and access schedules
- Card reader
- Biometric fingerprint reader

## Specifications

Mechanical data	
Height (mm):	472
Width (mm):	250
Depth (mm):	165mm (173mm with wall mounting plate)
Weight (kg):	11.8

Material data	
Cabinet material:	Aluminium
Colour options:	RAL7021 - Black grey
Door material:	Solid metal

Electrical data	
Power supply:	Input: 100-240V AC, Output: 15V DC
Battery backup:	DC12V 7Ah (H) 97.5mm x (w) 65mm x (L) 151mm
Power consumption:	35W max, typical 7W idle

Environmental data	
IP rating:	N/A
Operating temp:	Ambient, for indoor use only (-5°C to +40°C at 95% non-condensing relative humidity)
Mounting:	Wall
Key positions:	5 positions
Receptor strip support:	Locking, without buttons, 5 positions – with Tri-colour LEDs

Network & connectivity data	
Users per system:	Up to 40,000
Communications:	Ethernet (TCP/IP) 10 /100 MB
Reader interface:	Clock/data, Wiegand, Serial (RS232/TTL), PIN only, OSDP Readers (RS485) with or without encryption
